To mark the 50<sup>th</sup> Anniversary of the Publication of

*E. F. Schumacher's Small is Beautiful*

**Monday 6<sup>th</sup> March 2 – 5 pm**

Augustine Hall, Augustine House

VINTAGE SCHUMACHER

Small is Beautiful

A Study of Economics  
as if People Mattered

After initially receiving a lukewarm reception on its publication in 1973, E. F. Schumacher's *Small is Beautiful – A Study of Economics as if People Mattered* went on to become a seminal text. It was declared one of the hundred most influential books since the Second World War by The Times Literary Supplement. Yet, over time the key issues raised in the book have been sadly ignored or forgotten. Today, as struggle with multiple crises globally, the legacy of the book is as relevant, if not more, than ever. Can Schumacher's vision be used to develop solutions to today's environmental, social and economic crises?

At 3 pm we will be joined by our keynote speaker, *Satish Kumar* [peace-pilgrim, life-long activist and former monk who has been inspiring global change for over 50 years]. He will speak about :

*Linking Schumacher's*

*Small is Beautiful*

*Legacy with Regenerative Learning*
